### Agenda (Optional)

| Agenda Topic                                                  | Facilitator/Presenter |
|---------------------------------------------------------------|-----------------------|
| Topic 1: CTSA Fall Meeting                                    |                       |
| Topic 2: Steering Committee Meeting Highlights                |                       |
| Topic 3: Supporting next generation of biomedical researchers |                       |
| Topic 4:                                                      |                       |

### Notes:

Please summarize the highlights of your pod meeting below.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Pod meeting summary:</p> <p>Th pod shared their impression of the CTSA Fall Meeting. Program sessions on AI, N3C, RWD, accelerating clinical trials were very engaging and informative. The UL1/UM1 PI meeting with each table addressing a different topic led to interesting discussions, but the meeting was deemed to be too short and rushed to broadly share ideas that surfaced. A longer meeting with more opportunities for networking among PIs was desired.</p> <p>The Harvard pod led a discussion on how to improve support for the next generation of biomedical researchers. Challenges include: clinical demands; insufficient protected time; limited research funding; lack of mentorship and support during career transition to independence. Earlier research exposure during medical school, residency or fellowship may strengthen recruitment and retention of physician scientists. Certificate and masters programs can provide stronger foundation in research methods. Potential ways that CTSA's can help: identify alternative sources of funding for training (philanthropy, department, partner with industry); create more research training opportunities.</p> |
